

Invitation to 50th ACI World Congress in Budapest

26 – 28 May, 2011

Celebrating Past – Hungry for Future

We are hosting the 50th ACI World Congress in 2011 in Budapest, Hungary where hereby we would kindly invite you.

This anniversary event would give us a good opportunity to look back a bit, remember the "good old days" and also to see what the future holds - as the main topic of our Congress.

During the three-day event through introducing the current money market products and services, exhibitors can meet potential decision-makers and 600-800 experienced professionals with whom they can start building new partner connections. It is a great opportunity to introduce and promote your company, and also to deepen your existing business relations.

Among our keynote speakers you can find **Nouriel Roubini**, Professor New York University, Chairman, Roubini Global Economics, **Alexandre Lamfalussy**, Former General Manager of the Bank for International Settlements and Former President of the European Monetary Institute, **Presidents of Central European National Banks**, just to mention a few significant professionals.

We already have a big number of prominent sponsors and exhibitors so the 50th ACI World Congress will be a true professional paradise!

We would like to make this Congress a real memorable event for you, therefore we made sure that our social programmes are one-of-a-kind, too and will be remembered for a long time!

Kindly forward our invitation to your team members, colleagues and other ACI members of your country.

We are looking forward to welcoming you in Budapest!

Yours sincerely,

ACI World Congress Organising Committee
